

Great Science | Great Networking | Great Location

# Queenstown Molecular Biology Meeting

## 27–29 August 2012

### Sessions Include

- Molecular machinery and motion
- Genomes and function
- Evolution and molecules
- Pathogens
- Innovation and technology in molecular science
- Imaging (Joint session with AWCBR)

Register online  
**[www.qmb.org.nz](http://www.qmb.org.nz)**

### Confirmed Speakers

Rod Hubbard, *University of York, UK*

Michael Lynch, *Indiana University, USA*

Colin Kleanthous, *University of York, UK*

Charles Cantor, *Boston University and Sequenom, Inc., US*

Michelle Dunstone, *Monash University, Australia*

Austen Ganley, *Massey University, NZ*

Justin O'Sullivan, *Massey University, NZ*

Peter Dearden, *University of Otago, NZ*

Arvind Varsani, *University of Canterbury, NZ*

Alexei Drummond, *University of Auckland, NZ*

Fasseli Couliby, *Monash University, Australia*

Paul Young, *University of Queensland, Australia*

John Fraser, *University of Auckland, NZ*

Leann Tilley, *University of Melbourne, Australia*

Bernie Degan, *University of Queensland, Australia*

Thomas Knopfl, *RIKEN Brain Institute, Tokyo, Japan*

Christian Soeller, *University of Auckland, NZ*

Pete Jones, *University of Otago, NZ*

Peter Freestone, *University of Auckland, NZ*
